

SPACE UNIT

SPACE TOPICAL STUDY GROUP

Founded in November 1957, Space Unit is an international organization of collectors devoted to astrophilately. Space Unit is an independent philatelic society affiliated with the American Philatelic Society and the American Topical Association.

Knowledge Is Power!

Each year we publish six issues of **Astrophile**, a 48 page bimonthly, richly illustrated journal. That's over 300 pages of membership news and astrophilatelic articles about the past and the future of space exploration. We also list current launch and astronaut information, plus hard-to-find details about stamps, covers, and other philatelic items related to space exploration.

You can participate in Mini Auctions of Space Covers available only to members six times a year. With as many as 1200 covers listed, you're bound to find that gem you've been searching for. Maybe you'll discover new treasures to add to your collection. Catalog and bidsheets are mailed with each *Astrophile*.

You're invited to attend meetings of Space Unit chapters in New York City, Washington, D.C., Chicago, Houston and other cities, held on a regular basis. You are also welcome to visit our annual Space Unit National Meetings, held in a space-worthy city during a major philatelic show.

It Pays To Belong!

Space Unit provides you with information that can save you money by wise purchases, affordable references, and advice that will help identify fraudulent material. Plus - collecting astrophilately can benefit you by keeping your mind sharp, add interest to your life, and provide a great way to meet new friends.
